Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Title from title screen (viewed Sept. 18, 2008). "November 2006."
Nota di bibliografia	Includes bibliographical references.
Sommario/riassunto	This Statistical Brief presents estimates of the percentage of children under age 18 at the end of 2004 who lived in families containing at least one adult who was a current smoker. Variations are examined by selected characteristics of the child (asthma status, age, race/ethnicity) and co-residing family (number of adults, poverty status, geographic location of residence, highest adult education level).
