| Sommario/riassunto | A Functional Account of Marathi's Voice Phenomena offers a comprehensive account of the formal and semantic aspects of the two most prominent voice phenomena in Marathi: the passive and the causative. Previous studies offer many partial insights into various aspects of Marathi's passives and causatives. However, a comprehensive description of the formal, semantic, and pragmatic aspects of Marathi's passives and causatives as not been available so far. Attempting to fill this gap, the present monograph offers a description in the functional-typological framework. At the same time it |

introduces the reader to the rich tradition of grammatical studies in Marathi, which up to now have remained inaccessible to those who are unfamiliar with the language.
