Livello bibliografico	Monografia
Note generali	Title from title screen (viewed on Sept. 17, 2008). "For release on delivery ... September 17, 2008."
Nota di bibliografia	Includes bibliographical references.
Sommario/riassunto	GAO's August 2008 report examined (1) the fate of exported used electronics, (2) the effectiveness of regulatory controls over the export of these devices, and (3) options to strengthen federal regulation of exported used electronics. Among other things, GAO reviewed waste management surveys in developing countries, monitored e-commerce Web sites, and posed as foreign Internet buyers of broken CRTs.
