Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Title from title screen (viewed on February 3, 2009).
Nota di bibliografia	Includes bibliographical references (pages 44-47).
Sommario/riassunto	Mercury in precipitation was monitored during 2004--2005 at five locations in Indiana as part of the National Atmospheric Deposition Program-Mercury Deposition Network (NADP-MDN). Monitoring stations were operated at Roush Lake near Huntington, Clifty Falls State Park near Madison, Fort Harrison State Park near Indianapolis, Monroe County Regional Airport near Bloomington, and Indiana Dunes National Lakeshore near Porter. At these monitoring stations, precipitation amounts were measured continuously and weekly samples were collected for analysis of mercury by methods achieving detection limits as low as 0.05 ng/L (nanograms per liter). Wet deposition was computed as the product of mercury concentration and precipitation. The data were analyzed for seasonal patterns, temporal trends, and geographic differences.

3. Record Nr.	UNINA9910824074603321
Autore	Brubaker Dale L.
Titolo	Staying on track : an educational leader's guide to preventing derailment and ensuring personal and organizational success / / Dale L. Brubaker, Larry D. Coble ; cover designer, Scott Van Atta
