

1. Record Nr.	UNINA9910698235503321
Titolo	Testing for cytochrome P450 polymorphisms in adults with non-psychotic depression treated with selective serotonin reuptake inhibitors (SSRIs)
Pubbl/distr/stampa	[Place of publication not identified], : AHRQ, 2007
Descrizione fisica	1 online resource
Collana	Evidence report/technology assessment Testing for cytochrome P450 polymorphisms in adults with non-psychotic depression treated with selective serotonin reuptake inhibitors (SSRIs)
Disciplina	615/.78
Soggetti	Serotonin uptake inhibitors - Chemotherapy Cytochrome P-450 Depression, Mental Pharmacogenetics Genetic Variation Depressive Disorder Serotonin Agents Age Groups Neurotransmitter Uptake Inhibitors Cytochromes Mixed Function Oxygenases Hemeproteins Genetic Phenomena Mood Disorders Persons Neurotransmitter Agents Oxygenases Enzymes and Coenzymes Proteins Molecular Mechanisms of Pharmacological Action Physiological Effects of Drugs Oxidoreductases Mental Disorders Pharmacologic Actions Amino Acids, Peptides, and Proteins Enzymes Chemical Actions and Uses Polymorphism, Genetic

Cytochrome P-450 Enzyme System
Adult
Depressive Disorder, Major
Serotonin Uptake Inhibitors
Health & Biological Sciences
Pharmacy, Therapeutics, & Pharmacology

Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Bibliographic Level Mode of Issuance: Monograph
Nota di bibliografia	Includes bibliographical references.
