

1. Record Nr.	UNINA9910459084103321
Autore	Mayhew Robert
Titolo	The female in Aristotle's biology [[electronic resource]] : reason or rationalization // Robert Mayhew
Pubbl/distr/stampa	Chicago, : University of Chicago Press, 2004
ISBN	1-282-93284-5 9786612932847 0-226-51202-9
Descrizione fisica	1 online resource (149 p.)
Disciplina	305.4
Soggetti	Misogyny Women Electronic books.
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references (p. 119-124) and indexes.
Nota di contenuto	Frontmatter -- Contents -- Preface -- Abbreviations -- One. Aristotle and "Ideology" -- Two. Entomology -- Three. Embryology -- Four. Eunuchs and Women -- Five. Anatomy -- Six. The Softer and Less Spirited Sex -- Seven. Aristotle on Females: An Assessment of the Biology -- References -- Index Locorum -- Index of Names -- General Index
Sommario/riassunto	While Aristotle's writings on biology are considered to be among his best, the comments he makes about females in these works are widely regarded as the nadir of his philosophical oeuvre. Among many claims, Aristotle is said to have declared that females contribute nothing substantial to generation; that they have fewer teeth than males; that they are less spirited than males; and that woman are analogous to eunuchs. In <i>The Female in Aristotle's Biology</i> , Robert Mayhew aims not to defend Aristotle's ideas about females but to defend Aristotle against the common charge that his writings on female species were motivated by ideological bias. Mayhew points out that the tools of modern science and scientific experimentation were not available to the Greeks during Aristotle's time and that, consequently, Aristotle had relied not only on empirical observations when writing about living

organisms but also on a fair amount of speculation. Further, he argues that Aristotle's remarks about females in his biological writings did not tend to promote the inferior status of ancient Greek women. Written with passion and precision, *The Female in Aristotle's Biology* will be of enormous value to students of philosophy, the history of science, and classical literature.

2. Record Nr.	UNINA9910698267903321
Titolo	Report of Apollo 13 Review Board // by the National Aeronautics and Space Administration (NASA)
Pubbl/distr/stampa	District of Columbia : , : National Aeronautics and Space Administration, , 1970
Descrizione fisica	1 online resource (1194 pages)
Soggetti	Aeronautics and Astronautics Spacecraft Aerospace engineering 112
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Title from resource description page (viewed June 02, 2022).
Sommario/riassunto	This NASA report analyzes the causes of the Apollo 13 space shuttle's oxygen tank failure.

3. Record Nr.	UNINA9910782772203321
Titolo	Guidelines for online public access catalogue (OPAC) displays : final report May 2005 // recommended by the Task Force on Guidelines for OPAC displays ; approved by the Standing Committee of the IFLA Cataloguing Section
Pubbl/distr/stampa	Munchen, : Saur, 2005 Munchen, Germany : , : K.G. Saur, , 2005
ISBN	1-283-40349-8 9786613403490 3-598-44031-6
Descrizione fisica	1 online resource (61 pages) : illustrations
Collana	IFLA series on bibliographic control ; ; 27
Classificazione	AN 73600
Altri autori (Persone)	Standing Committee of the IFLA Section on Cataloguing
Disciplina	025.316
Soggetti	Online library catalogs Online library catalogs - Design Online library catalogs - Evaluation
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Copyright by International Federation of Library Associations and Institutions, The Hague.
Nota di bibliografia	Includes bibliographical references (p. 55-59).
Nota di contenuto	Frontmatter -- CONTENTS -- INTRODUCTION -- PRINCIPLES -- RECOMMENDATIONS -- EXAMPLES -- Backmatter
Sommario/riassunto	Existing Online Public Access Catalogues (OPACs) demonstrate differences in the range and complexity of their functional features, terminology, and help facilities. While many libraries already have OPACs, there is a need to bring together, in the form of guidelines or recommendations, a corpus of good practice to assist libraries in designing or re-designing the displays for their OPACs, taking into consideration the needs of users. The audience for these guidelines is librarians charged with customizing OPAC software and vendors and producers of this software. The guidelines are mainly designed
