Disciplina	660.2804
Soggetti	Chemicals - Safety measures Handbooks and manuals.
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	This 2007 publication is intended as a source of general industrial hygiene information on several hundred chemicals/classes for workers, employers, and occupational health professionals. It does not contain an analysis of all pertinent data, rather it presents key information and data in abbreviated or tabular form for chemicals or substance groupings (e.g. cyanides, fluorides, manganese compounds) that are found in the work environment. The information found in this Guide should help users recognize and control occupational chemical hazards.
