Sommario/riassunto	The rules presented in this volume of "Principles of European Law" deal with service contracts. The economic importance of service contracts within the European Union is enormous. The European Commission recently estimated that services account for some 50% of EU GDP and for some 60% of employment in the Union - though an exact figure is hard to determine given that many services are provided by manufacturers of goods. According to the European Commission, many services appear in official statistics as manufacturing activity, meaning that the role of services in the economy is often significantly underestimated.

Sommario/riassunto	"Forty years after the Cultural Revolution, Art in Turmoil revisits the visual and performing arts of the period - the paintings, propaganda posters, political cartoons, sculpture, folk arts, private sketchbooks, opera, and ballet. Probing deeply, it examines what these vibrant, militant, often gaudy images meant to artists, their patrons, and their audiences at the time, and what they mean now, both in their original forms and as revolutionary icons reworked for a new market-oriented age. Chapters by scholars of Chinese history and art and by artists whose careers were shaped by the Cultural Revolution decode the rhetoric of China's turbulent decade. The many illustrations in the book, some familiar and some never seen before, also offer new

insights into works that have transcended their times."--BOOK JACKET.
