

1. Record Nr.	UNINA9910698390503321
Autore	Anderson Ren
Titolo	Program design analysis using BEopt building energy optimization software [[electronic resource]] : defining a technology pathway leading to new homes with zero peak cooling demand : preprint // R. Anderson and C. Christensen, National Renewable Energy Laboratory [and] S. Horowitz, University of Colorado
Pubbl/distr/stampa	Golden, CO : , : National Renewable Energy Laboratory, , [2006]
Descrizione fisica	13 pages : digital, PDF file
Collana	NREL/CP ; ; 550-39821
Altri autori (Persone)	ChristensenCraig HorowitzScott
Soggetti	Architecture and energy conservation - Research Dwellings - Energy consumption - Measurement House construction - Research
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Title from title screen (viewed August 15, 2007). "August 2006."
