

1. Record Nr.	UNINA9910698434403321
Titolo	Uterine cancer // edited by David M. Luesley, Frank G. Lawton, Andrew Berchuck
Pubbl/distr/stampa	New York : , : Taylor & Francis, , 2006
ISBN	0-429-16320-7 1-280-51854-5 9786610518548 0-8493-6292-X
Edizione	[Rev. Mar. 2009.]
Descrizione fisica	1 online resource (315 p.)
Collana	CDC publication #99-9125
Altri autori (Persone)	LuesleyDavid LawtonFrank G BerchuckAndrew
Disciplina	616.99/466
Soggetti	Uterus - Cancer
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Front Cover; Preface; Contents; Contributors; 1. Epidemiology; 2. Screening in Endometrial Cancer; 3. Pathology of Endometrial Hyperplasia and Neoplasia; 4. Pathology of Uterine Sarcoma; 5. The Molecular Genetics of Endometrial Cancer; 6. Clinical Presentation and Investigation: The "One-Stop" Clinic, Endometrial Sampling, Hysteroscopy, Vaginal Ultrasound; 7. Imaging Endometrial Cancer; 8. Surgery for Uterine Cancer; 9. Risk Factors and the Role of Radiotherapy in the Treatment of Endometrial Cancer; 10. Chemotherapy for Uterine Cancer 11. Minimal Access Surgery in Endometrial Cancer 12. Follow-Up and Detection of Relapsed Disease in Uterine Cancer; 13. The Role of Surgery in Advanced and Relapsed Disease; 14. Endometrial Carcinoma and Hormone Replacement Therapy; 15. Future Developments in Radiation Therapy for Endometrial Carcinoma; 16. Future Directions: Chemotherapy and Novel Agents for Uterine Cancer; 17. Combined Therapy in Uterine Cancer: Future Directi
Sommario/riassunto	This authoritative reference compiles the latest studies on the epidemiology, diagnosis, and treatment of uterine cancer and offers an

extensive review of the molecular pathogenesis of endometrial and uterine disorders-analyzing patterns of disease presentation as population demographics change and considering the challenges this will place on future healthcare procedures.
