Sommario/riassunto	While opportunities to learn about the religious other need to be much more widely available, especially in countries experiencing religious conflict, considerable progress has been made in recent years. Particularly promising are the new programs being developed in Bulgaria, Bosnia, Serbia, and Indonesia. But to build on the progress already made, mechanisms must be developed to enable professors in this field to share their materials and approaches with others. The introduction of Internet-based resources may be one such solution.
