

1. Record Nr.	UNINA9910698628803321
Autore	Hirsch Samuel G.
Titolo	A study on reactive ion etching of barium strontium titanate films using mixtures of argon (Ar), carbon tetrafluoride (CF <sub>4</sub> ), and sulfur hexafluoride (SF <sub>6</sub> ) // Samuel G. Hirsch [and four others]
Pubbl/distr/stampa	Aberdeen Proving Ground, MD : , : Army Research Laboratory, , July 2014
Descrizione fisica	1 online resource (iv, 7 pages) : illustrations
Collana	ARL-TR ; ; 6979
Soggetti	Semiconductors - Etching Varactors
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Title from title screen (viewed Sept. 29, 2015). "July 2014."
Nota di bibliografia	Includes bibliographical references.
