Nota di bibliografia	Includes bibliographical references.
Nota di contenuto	Affecting the Adoption of Financial Technology at Universities -- Affecting the Adoption of Financial Technology at Universities -- Factors to the Adoption of GSM Telephony in Rural Areas in West Africa -- Disruptive Fintech for Inclusive Finance in Africa: Role and Contribution of Mobile Money. .
Sommario/riassunto	This book contains high-profile contributions that emerged from the Information and Communication Technologies in Organizations and Society (ICTO) conference on "Smart Technologies for an Inclusive World," held in 2020. It focuses on the interplay between technology adoption, digital transformation, and value creation, highlighting various aspects of current issues organizations face in adopting digital technologies to achieve an inclusive and sustainable society in the long term. As such, the book contributes to our understanding of a humanistic approach to managing digital transformation toward inclusive organizations and societies and is a valuable asset for both researchers and managers of organizations.
