| Titolo | Social science to improve fuels management [[electronic resource]] : a synthesis of research on aesthetics and fuels management // [Robert L. Ryan] |
| Pubbl/distr/stampa | St. Paul, MN : , : USDA Forest Service, North Central Research Station, , 2005 |
| Descrizione fisica | vi, 58 pages : digital, PDF file |
| Collana | General technical report NC ; ; 261 |
| Soggetti | Forests and forestry - Fire management - Social aspects - West (U.S.) Fuel reduction (Wildfire prevention) - Social aspects - West (U.S.) |
| Lingua di pubblicazione | Inglese |
| Formato | Materiale a stampa |
| Livello bibliografico | Monografia |
| Note generali | Title from title screen (viewed on May 18, 2009). |
| Nota di bibliografia | Includes bibliographical references (pages 50-58). |
| Sommario/riassunto | "A series of syntheses were commissioned by the USDA Forest Service to aid in fuels mitigation project planning. This synthesis focuses on research addressing aesthetic considerations of fuels management. A general finding is that fuels management activities can contribute to the visual quality of a landscape. Topics covered in the synthesis include research findings on visual preferences in forested ecosystems, strategies for maintaining or improving visual quality through fuels management, and the planning, implementation, and monitoring of resource management to improve visual quality."--P. [59]. |
