Sommario/riassunto	The President's Emergency Plan for AIDS Relief (PEPFAR) provides assistance for combating HIV/AIDS in 15 focus countries and elsewhere, with global targets for prevention, treatment, and care. The U.S. Leadership Against HIV/AIDS, TB and Malaria Act of 2003, which authorizes the \$15 billion program, contains directives to guide the Office of the U.S. Global AIDS Coordinator's (OGAC) allocation of this funding. GAO was asked to describe (1) the views of HIV/AIDS experts on these directives, (2) an alternative approach to allocating funds, and (3) potential challenges related to this approach.
