Livello bibliografico	Monografia
Note generali	Title from title screen (viewed on Dec. 15, 2008). "December 2008." "GAO-09-96."
Nota di bibliografia	Includes bibliographical references.
Sommario/riassunto	The Department of Homeland Security (DHS) has established a program known as U.S. Visitor and Immigrant Status Indicator Technology (US-VISIT) to collect, maintain, and share information, including biometric identifiers, on certain foreign nationals who travel to and from the United States. GAO's objectives were to (1) determine if the plan satisfies the twelve legislative conditions and (2) provide observations about the plan and management of the program.
