

1. Record Nr.	UNINA9910699509003321
Titolo	Laboratorios de metanfetamina su identificacion y sus peligros [[electronic resource]]
Pubbl/distr/stampa	Johnstown, PA : , : U.S. Dept. of Justice, National Drug Intelligence Center, , [2005]
Descrizione fisica	1 online resource (2 unnumbered pages) : color illustrations
Collana	Datos rapidos Preguntas y respuestas
Soggetti	Methamphetamine - United States Chemical laboratories - United States Hazardous substances - United States Hazardous wastes - United States
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Title from title screen (viewed on Aug 12, 2011). "NDIC product no. 2005-L0508-028."

2. Record Nr.	UNINA9910627294403321
Autore	Bates Peter (Peter George)
Titolo	External parasites of small ruminants : a practical guide to their prevention and control / / Peter Bates
Pubbl/distr/stampa	Cambridge, Mass., : CABI, 2012
ISBN	9786613525000 9781280121142 1280121149 9781845939328 1845939328
Descrizione fisica	1 online resource (255 p.)
Disciplina	636.3
Soggetti	Sheep - Parasites Goats - Parasites Sheep - Parasites - Control Goats - Parasites - Control Ectoparasitic infestations
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Mites (Acari) -- Ticks (Ixodida) -- Lice (Phthiraptera) -- Flies (Diptera) -- Fleas (Siphonaptera) -- Diagnosis of ectoparasite infections -- Prevention -- Chemical control -- Alternative methods for ectoparasite control -- Economic damage.
Sommario/riassunto	Sheep and goats are farmed throughout the world for meat, fiber, milk and leather. These small ruminants are very susceptible to external parasites, which has significant implications for their health and welfare as well as the quality and value of the end products for which they are farmed. This book gives practical guidance on preventing and controlling ectoparasites that contribute to disease and infection in sheep and goats, discussing types of parasites, the diseases they cause and what methods of control are available, as well as wider implications such as animal welfare and environmental
