

1. Record Nr.	UNINA9910699922203321
Titolo	Aero-heating of shallow cavities in hypersonic freestream flow [[electronic resource] /] / Joel L. Everhart ... [and others]
Pubbl/distr/stampa	Hampton, Va. : , : National Aeronautics and Space Administration, Langley Research Center, , [2010]
Descrizione fisica	1 online resource (ii, 76 pages) : illustrations, color
Collana	NASA/TM ; ; 2010-216846
Altri autori (Persone)	EverhartJoel L
Soggetti	Cavities Aerodynamic heating Free flow Hypersonic flow Space Shuttle orbiters Wind tunnel tests Computational fluid dynamics
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Title from title screen (viewed on April 20, 2011). "September 2010."
Nota di bibliografia	Includes bibliographical references (pages 14-18)
