

1. Record Nr.	UNINA9910700124903321
Autore	Obarski Gregory E
Titolo	Measurement assurance program for the spectral density of relative intensity noise of optical fiber sources near 1550 nm [[electronic resource] /] / Gregory E. Obarski, Jolene D. Splett
Pubbl/distr/stampa	[Gaithersburg, Md.] : , : U.S. Dept. of Commerce, Technology Administration, National Institute of Standards and Technology, , [2000]
Descrizione fisica	1 online resource (iv, 90 pages) : illustrations
Collana	NIST measurement services NIST special publication ; ; 250-57
Altri autori (Persone)	SplettJolene D
Soggetti	Fiber optics - Noise - Measurement Spectral energy distribution - Measurement Optical communications - Noise - Measurement Noise - Measurement - Standards
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Title from title screen (viewed on Mar. 17, 2011). Paper version no longer available for sale by the Supt. of Docs. "September 2000."
Nota di bibliografia	Includes bibliographical references (pages 50-52).
