

| | |
|-------------------------|---|
| 1. Record Nr. | UNINA9910700253503321 |
| Autore | Cole James C |
| Titolo | Geologic map of the Estes Park 30 x 60 quadrangle, north-central Colorado [[electronic resource] /] / James C. Cole and William A. Braddock |
| Pubbl/distr/stampa | [Reston, Va.] : , : U.S. Dept. of the Interior, U.S. Geological Survey, , 2009 |
| Descrizione fisica | 1 online resource (1 map) : color + + 1 pamphlet (iv, 56 pages) |
| Collana | Scientific investigations map ; ; 3039 |
| Altri autori (Persone) | BraddockWilliam A. <1929-2003.> |
| Soggetti | Geology - Colorado - Rocky Mountain National Park Region Maps. |
| Lingua di pubblicazione | Inglese |
| Formato | Materiale cartografico a stampa |
| Livello bibliografico | Monografia |
| Note generali | Relief shown by contours and spot heights. Includes location maps, 2 index maps, 1 lithologic column, and 7 col. ill. Title from title screen (viewed on May 15, 2009). |
| Nota di bibliografia | Includes bibliographical references (pages 49-56). |

|-------------------------|---|
| 2. Record Nr. | UNINA9910779374203321 |
| Titolo | Advances in physical ergonomics and safety / / edited by Tareq Z. Ahram and Waldemar Karwowski |
| Pubbl/distr/stampa | Boca Raton : , : CRC Press, , 2013 |
| ISBN | 0-429-10510-X 1-4398-7059-4 |
| Descrizione fisica | 1 online resource (607 p.) |
| Collana | Advances in human factors and ergonomics series |
| Classificazione | TEC017000 |
| Altri autori (Persone) | AhramTareq Z KarwowskiWaldemar <1953-> |
| Disciplina | 620.8 |
| Soggetti | Human engineering Design - Human factors Manufacturing processes - Human factors Industrial safety |
| Lingua di pubblicazione | Inglese |
| Formato | Materiale a stampa |
| Livello bibliografico | Monografia |
| Note generali | Description based upon print version of record. |
| Nota di bibliografia | Includes bibliographical references. |
| Nota di contenuto | section 1. Safety and health -- section 2. Work related musculoskeletal disorders -- section 3. Ergonomics and system design -- section 4. Ergonomic methods and task analysis. |
| Sommario/riassunto | <p>Preface The discipline of human factors and ergonomics (HF/E) is concerned with the design of products, process, services, and work systems to assure their productive, safe and satisfying use by people. Physical ergonomics involves the design of working environments to fit human physical abilities. By understanding the constraints and capabilities of the human body and mind, we can design products, services and environments that are effective, reliable, safe and comfortable for everyday use. A thorough understanding of the physical characteristics of a wide range of people is essential in the development of consumer products and systems. Human performance data serve as valuable information to designers and help ensure that the final products will fit the targeted population of end users. Mastering physical ergonomics and safety engineering concepts is fundamental to the creation of products and systems that people are able to use, avoidance of stresses, and minimization of the risk for</p> |

accidents. This book focuses on the advances in the physical HF/E and safety, which are a critical aspect in the design of any human-centered technological system. The ideas and practical solutions described in the book are the outcome of dedicated research by academics and practitioners aiming to advance theory and practice in this dynamic and all-encompassing discipline. --
