

1. Record Nr.	UNINA9910700529203321
Autore	Remley Kate A
Titolo	The impact of internal sampling circuitry on the phase error of the nose-to-nose oscilloscope calibration [[electronic resource] /] / Kate A. Remley
Pubbl/distr/stampa	Boulder, Colo. : , : U.S. Dept. of Commerce, Technology Administration, National Institute of Standards and Technology, , [2003]
Descrizione fisica	1 online resource (iv, 64 pages) : color illustrations
Collana	NIST technical note ; ; 1528
Soggetti	Oscilloscopes - Calibration Frequency response (Electrical engineering)
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Title from title screen (viewed on Sept. 30, 2011). "August 2003."
Nota di bibliografia	Includes bibliographical references (pages 63-64).
