Sommario/riassunto

The papers in this volume deal with the languages of ancient Italy and the Romance dialects that grew from them. The arrangement of papers in the volume is topical, starting with ancient Italy and moving upward in time and outward in space through general Romance to Italian, French and Provençal, Spanish, Romanian and Sardinian.

Sommario/riassunto

This book examines the ways in which scholarly expertise was mobilized during the First World War, and the consequences of this for the inter-connected academic world that had developed in the late nineteenth century. Adopting a strong international approach, the contributors to this volume examine the impact of the War on individuals, institutions, and disciplines, cumulatively demonstrating the strong afterlife of conflict for scholarly practices and academic communities across Europe and North America, in the decades following the cessation of the Great War.
