

1. Record Nr.	UNINA9910700813203321
Autore	Schaefer H. J
Titolo	Study of high-speed combustion flows by laser velocimetry [[electronic resource] /] / H. J. Schaefer
Pubbl/distr/stampa	Saint-Louis, France : , : [Insitut Franco-Allemand de Recherches] [Hampton, Va.] : , : [National Aeronautics and Space Administration, Langley Research Center], , [1984]
Descrizione fisica	1 online resource (29 unnumbered pages) : illustrations
Collana	[NASA CR ; ; 176439]
Soggetti	Flow velocity Laser doppler velocimeters Supersonic combustion Technology assessment Velocity measurement
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Title from title screen (viewed Aug. 22, 2011). Series taken from NASA air and space database (CASI). French publisher taken from NASA air and space database (CASI). "Rapport - Bericht CO 232/84." "Presentation given during a visit to NASA Langley Research Center, Hampton (Virginia, USA), 5 October 1984." "26-10-1984." "695799."
