

1. Record Nr.	UNINA9910700823703321
Autore	Hoffert Martin I
Titolo	Application of solar max ACRIM data to analyze solar-driven climatic variability on earth [[electronic resource]] : final report // Martin I. Hoffert, principal investigator
Pubbl/distr/stampa	[New York, N.Y.] : , : New York University, Faculty of Arts and Science, Dept. of Applied Science [Washington, DC] : , : [National Aeronautics and Space Administration], , [1986]
Edizione	[[Jan. 1986 ed.]]
Descrizione fisica	1 online resource (11 unnumbered pages) : illustrations
Collana	[NASA contractor report] ; ; NASA CR-176483
Soggetti	Climatology Correlation detection Solar radiation Sunspots
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Title from title screen (viewed Aug. 17, 2011). "January 1986." "NYU/86-146."
Nota di bibliografia	Includes bibliographical references (page [10]).
