

1. Record Nr.	UNINA9910701202803321
Autore	Alexander Paul
Titolo	Environmental tests of metallization systems for terrestrial photovoltaic cells [[electronic resource] /] / Paul Alexander, Jr
Pubbl/distr/stampa	Pasadena, Calif. : , : National Aeronautics and Space Administration, Jet Propulsion Laboratory, , [1985]
Descrizione fisica	1 online resource (80 unnumbered pages) : illustrations
Collana	NASA-CR ; ; 177215
Soggetti	Humidity Metallizing Photovoltaic cells Solar arrays Temperature effects
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Title from title screen (viewed on Dec. 22, 2011). "December 31, 1985." "Prepared for U.S. Department of Energy Through an Agreement with National Aeronautics and Space Administration by Jet Propulsion Laboratory, California Institute of Technology, Pasadena, California." "JPL publication 85-56." "DOE/JPL-1012-113."
Nota di bibliografia	Includes bibliographical references (page [63-64]).
