

1. Record Nr.	UNINA9910701454603321
Autore	Balch D. T
Titolo	Experimental study of main rotor tip geometry and tail rotor interactions in hover [[electronic resource] /] / D. T. Balch and J. Lombardi
Pubbl/distr/stampa	Moffett Field, Calif : , : National Aeronautics and Space Administration, Ames Research Center, , [1985]
Descrizione fisica	1 online resource (2 volumes) : illustrations
Collana	NASA contractor report ; ; 177336 NASA-CR ; ; 177336-Vol-1 NASA-CR ; ; 177336-Vol-2
Altri autori (Persone)	LombarderoJ
Soggetti	Aerodynamic interference Geometry Helicopter tail rotors Hovering Rotary wings Rotor speed Tip driven rotors Tables (data)
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Title from title screen (viewed on Feb. 22, 2012). "February 1985."
Nota di bibliografia	Includes bibliographical references. (pages 30-31 in volume 1)
Nota di contenuto	v. 1. Text and figures. -- v. 2. Run log and tabulated data.
