

1. Record Nr.	UNINA9910701599603321
Titolo	Renewable energy [[electronic resource]] : complementary policies for climate legislation : hearing before the Subcommittee on Energy and Environment of the Committee on Energy and Commerce, House of Representatives, one Hundred Eleventh Congress, first session, February 26, 2009
Pubbl/distr/stampa	Washington : , : U.S. G.P.O., , 2011
Descrizione fisica	1 online resource (v, 150 pages) : illustrations, maps
Soggetti	Renewable energy sources - Government policy - United States Climatic changes - Government policy - United States
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Title from title screen (viewed on Mar. 9, 2012). Paper version available for sale by the Supt. of Docs., U.S. G.P.O. "Serial no. 111-6."
Nota di bibliografia	Includes bibliographical references.

2. Record Nr.	UNINA9910830209503321
Autore	Rouse William B
Titolo	People and organizations [[electronic resource]] : explorations of human-centered design / / William B. Rouse
Pubbl/distr/stampa	Hoboken, N.J., : John Wiley, c2007
ISBN	1-280-93527-8 9786610935277 0-470-16956-7 0-470-16955-9
Descrizione fisica	1 online resource (471 p.)
Collana	Wiley series in systems engineering and management
Disciplina	620.8/2 658.3
Soggetti	Human engineering
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	The path of serendipity -- Estimation, mental models, and teams -- Processes, networks, and demands -- Tasks, errors, and automation -- Failures, detection, and diagnosis -- Displays, controls, aiding, and training -- Information, knowledge, and decision making -- Products, systems, and services -- Invention, innovation, and options -- Challenges, situations, and change -- Value, work, and transformation -- People, organizations, and serendipity.
Sommario/riassunto	This book is about people who operate, maintain, design, research, and manage complex systems, ranging from air traffic control systems, process control plants and manufacturing facilities to industrial enterprises, government agencies and universities. The focus is on the nature of the work these types of people perform, as well as the human abilities and limitations that usually enable and sometimes hinder their work. In particular, this book addresses how to best enhance abilities and overcome limitations, as well as foster acceptance of the means to these ends.
