Record Nr.	UNINA9910701703303321
Autore	Mendelsohn Michael
Titolo	Federal and state structures to support financing utility-scale solar projects and the business models designed to utilize them [[electronic resource] /] / Michael Mendelsohn and Claire Kreycik
Pubbl/distr/stampa	Golden, Colo. : , : National Renewable Energy Laboratory, , 2012
Descrizione fisica	1 online resource (x, 41 pages) : color illustrations
Collana	NREL/TP ; ; 6A20-48685
Altri autori (Persone)	KreycikClaire
Soggetti	Renewable energy sources - Finance - Government policy - United States
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Title from title screen (viewed Aug. 10, 2012). "April 2012."
Nota di bibliografia	Includes bibliographical references (pages 34-41).
Sommario/riassunto	Utility-scale solar projects have grown rapidly in number and size over the last few years, driven in part by strong renewable portfolio standards (RPS) and federal incentives designed to stimulate investment in renewable energy technologies. This report provides an overview of such policies, as well as the project financial structures they enable, based on industry literature, publicly available data, and questionnaires conducted by the National Renewable Energy Laboratory (NREL).
