|-------------------------|---|
| 1. Record Nr.           | UNINA9910701848703321   |
| Autore                  | Eskins J  |
| Titolo                  | Further investigation into calibration techniques for a magnetic suspension and balance system [[electronic resource] /] / J. Eskins  |
| Pubbl/distr/stampa      | Southampton, England : University of Southampton, Dept. of Aeronautics and Astronautics : , : Hampton, Va. : , : National Aeronautics and Space Administration, Langley Research Center, , [1986] |
| Descrizione fisica      | 1 online resource (i, 41 pages) : illustrations   |
| Collana                 | NASA contractor report ; ; 178056   |
| Soggetti                | Calibrating<br>Magnetic suspension<br>Wind tunnel models  |
| Lingua di pubblicazione | Inglese   |
| Formato                 | Materiale a stampa  |
| Livello bibliografico   | Monografia  |
| Note generali           | Title from title screen (viewed June 8, 2012).<br>"February 1986."  |
| Nota di bibliografia    | Includes bibliographical references (page 14).  |
