

1. Record Nr.	UNINA9910701928903321
Autore	Brooks David R
Titolo	An introduction to orbit dynamics and its application to satellite-based earth monitoring missions [[electronic resource] /] / David R. Brooks
Pubbl/distr/stampa	[Washington, D.C.] : , : National Aeronautics and Space Administration, Scientific and Technical Information Office, , 1977
Descrizione fisica	1 online resource (v, 80 pages) : illustrations
Collana	NASA reference publication ; ; 1009
Soggetti	Artificial satellites - Orbits Remote sensing Earth resources technology satellites Earth surface Orbit calculation Satellite-borne instruments
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Title from title screen (viewed on July 30, 2012). "Performing organization, NASA Langley Research Center"--Rept. documentation p. "November 1977"--Rept. documentation p.
Nota di bibliografia	Includes bibliographical references (page 59).
