|-------------------------|---|
| 1. Record Nr. | UNINA9910702091603321 |
| Autore | Sullivan John P. |
| Titolo | Quantitative global heat transfer in a Mach-6 quiet tunnel // John P. Sullivan [and ten others] |
| Pubbl/distr/stampa | Hampton, Va. : , : National Aeronautics and Space Administration, Langley Research Center, , [2012] |
| Descrizione fisica | 1 online resource (148 pages) : color illustrations |
| Collana | [NASA contractor report] ; ; NASA-CR 2012-217331 |
| Soggetti | Heat transfer Hypersonic speed Temperature sensitive paints Wind tunnel tests Hypersonic wind tunnels Heat flux Mathematical models |
| Lingua di pubblicazione | Inglese |
| Formato | Materiale a stampa |
| Livello bibliografico | Monografia |
| Note generali | Title from title screen (viewed Jan. 15, 2013). "February 2012." |
| Nota di bibliografia | Includes bibliographical references (pages 126-128). |
