

1. Record Nr.	UNINA9910702402103321
Autore	Heeter Jenny
Titolo	A survey of state-level cost and benefit estimates of renewable portfolio standards // J. Heeter [and six others]
Pubbl/distr/stampa	Golden, CO : , : National Renewable Energy Laboratory Berkeley, CA : , : Lawrence Berkeley National Laboratory, , 2014
Desrizione fisica	1 online resource (xi, 97 pages) : color illustrations, color map
Collana	NREL/TP ; ; 6A20-61042
Soggetti	Renewable energy sources - Government policy - United States - States Energy policy - United States - States Electric utilities - United States - States
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	"May 2014." "LBNL-6589E."
Nota di bibliografia	Includes bibliographical references (pages 66-78).

2. Record Nr.	UNINA9910789429003321
Autore	Green Keith <1954->
Titolo	Bertrand Russell, language and linguistic theory [[electronic resource] /] / Keith Green
Pubbl/distr/stampa	London ; ; New York, : Continuum, c2007
ISBN	1-283-12317-7 9786613123176 1-4411-9749-4
Descrizione fisica	1 online resource (185 p.)
Collana	Continuum studies in British philosophy
Disciplina	121/.68092
Soggetti	Language and languages - Philosophy - History - 20th century
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references (p. [162]-170) and index.
Nota di contenuto	Contexts and connexions -- Language and the world -- Language and the mind -- Language and linguistic theory -- 'These fragments I have shored against my ruins' : Russell and modernism.
Sommario/riassunto	Although there has been a significant revival in interest in Bertrand Russell's work in recent years, most professional philosophers would still argue that Russell was not interested in language. Here, in the first full-length study of Russell's work on language throughout his long career, Keith Green shows that this is in fact not the case. In examining Russell's work, particularly from 1900 to 1950, Green exposes a repeated emphasis on, and turn to, linguistic considerations. Green considers how 'linguistics' and 'philosophy' were struggling in the twentieth century to define themselves and

3. Record Nr.	UNINA9910781259303321
Autore	Banchoff Thomas F. <1964->
Titolo	Embryo politics : ethics and policy in Atlantic democracies / / Thomas Banchoff
Pubbl/distr/stampa	Ithaca [N.Y.] : , : Cornell University Press, , 2011
ISBN	0-8014-6107-3 0-8014-6059-X
Descrizione fisica	1 online resource (viii, 294 pages)
Disciplina	174.2/8
Soggetti	Human embryo - Research - Moral and ethical aspects - United States Human embryo - Research - Moral and ethical aspects - Europe Human embryo - Research - Political aspects - United States Human embryo - Research - Political aspects - Europe
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Bibliographic Level Mode of Issuance: Monograph
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	The emergence of ethical controversy -- First embryo research regimes -- The ethics of embryonic stem cell research -- Stem cell and cloning politics.
Sommario/riassunto	Since the first fertilization of a human egg in the laboratory in 1968, scientific and technological breakthroughs have raised ethical dilemmas and generated policy controversies on both sides of the Atlantic. Embryo, stem cell, and cloning research have provoked impassioned political debate about their religious, moral, legal, and practical implications. National governments make rules that govern the creation, destruction, and use of embryos in the laboratory-but they do so in profoundly different ways. In <i>Embryo Politics</i> , Thomas Banchoff provides a comprehensive overview of political struggles about embryo research during four decades in four countries-the United States, the United Kingdom, Germany, and France. Banchoff's book, the first of its kind, demonstrates the impact of particular national histories and institutions on very different patterns of national governance. Over time, he argues, partisan debate and religious-secular polarization have come to overshadow ethical reflection and political deliberation on the moral status of the embryo and the promise of biomedical research.

Only by recovering a robust and public ethical debate will we be able to govern revolutionary life-science technologies effectively and responsibly into the future.
