Sommario/riassunto	This is a major new selection of Samuel Johnson's best work, delightfully introduced by W. K. Wimsatt and scrupulously annotated by Frank Brady and Mr. Wimsatt. Samuel Johnson, the only writer in English since the Renaissance to give his name to a literary period, was the center of English letters in his time. He was Dictionary Johnson, the lexicographer who had single-handedly settled the English language (it was hoped) on a firm basis; he was the author of a handful of fine poems, including two of the most remarkable satires of the century; he was a moralist whose Rambler and Idler essays, and novel-of-ideas Rasselas, provided a searching view of men and matters. And in his final years he produced his greatest work, that extraordinary combination of biography and criticism which came to be known as the

Lives of the Poets. This first extensive anthology of Johnson's writings to be published in many years emphasizes Johnson the writer. It responds to those aspects of Johnson's work of special interest to modern readers. It comprises a selection of Johnson's letters, all of his major poems (including London), Rasselas, twenty-one Rambler, nineteen Idlers, the Prefaces to the Dictionary and to the edition of Shakespeare, and the following Lives of the Poets: Cowley, Milton, Swift, Pope, Savage, Collins, and Gray. All these works are extensively annotated and printed complete. Mr. Wimsatt, one of the outstanding Johnsonians of this century, provides in his Introduction a clear, connected biographical account of Johnson, stressing his writings. An up-to-date bibliography is also included. Johnson's varied accomplishments-as poet, as moralist, as biographer, as critic-are all amply represented.

Sommario/riassunto

"Il y a un peu plus de cinquante ans, le 8 decembre 1965, le pape Paul VI promulguait la constitution pastorale 'Gaudium et Spes'. Ce document majeur du concile Vatican II, qui évoque largement la dignité du mariage et de la famille et insiste sur la place primordiale de l'amour conjugal, mettait fin a la doctrine nataliste absolue d'autrefois. Toutefois, moins de trois ans plus tard, l'encyclique 'Humanae Vitae' vint reaffirmer la doctrine traditionnelle de l'Eglise en ce qui concerne la prohibition de la contraception artificielle. Ces documents sont le fruit de debat houleux au sein de l'Eglise, autour de themes qui remontent aux origines du christianisme, telles la primauté du celibat ou du mariage, la fonction determinante de la famille ou la liberte de l'individu, ou encore la relation comme concupiscence ou acte de filiation. Les contributions reunies dans ce volume placent ces tensions dans leur perspective historique et reconstituent l'evolution des positions de l'Eglise a propos du couple et de la famille depuis les origines jusqu'a nos jours, a travers l'etude de moments charnieres et de documents-cles, et par l'observation des acteurs tant des processus d'elaboration des normes que, parfois, des mouvements de contestation de celles-ci."--Page 4 of cover.
