

1. Record Nr.	UNINA9910702696803321
Autore	Zemel Jay N.
Titolo	Deep diode arrays for X-ray detection // principal investigator, Jay N. Zemel
Pubbl/distr/stampa	Philadelphia, Pa. : , : University of Pennsylvania, The Moore School of Electrical Engineering Greenbelt, Maryland : , : NASA/Goddard Space Flight Center, , 29 January 1984
Descrizione fisica	1 online resource (4 unnumbered pages, 83 pages) : illustrations
Collana	NASA CR ; ; 175178
Soggetti	P-n junctions Temperature gradients X ray spectroscopy Diodes Energy spectra
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Title from title screen (viewed Sept. 12, 2014). "29 January 1984."
Nota di bibliografia	Includes bibliographical references (pages 76-78).

2. Record Nr.	UNINA9910220144003321
Autore	Friedberg Mark W.
Titolo	Effects of health care payment models on physician practice in the United States
Pubbl/distr/stampa	RAND Corporation, 2015 [Place of publication not identified], : Rand Corporation, 2015
ISBN	0-8330-9023-2
Descrizione fisica	1 online resource
Disciplina	362.1068/1
Soggetti	Medical care - United States - Cost control Medical fees - United States Physician practice patterns - United States Practice Management Organization and Administration Economics Reimbursement Mechanisms Professional Practice Social Sciences Health Services Administration Insurance, Health, Reimbursement Delivery of Health Care Financing, Organized Health Care Economics and Organizations Geography Medical Economics Public Health Health & Biological Sciences United States North America Americas Geographic Locations
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Bibliographic Level Mode of Issuance: Monograph

; Machine generated contents note: ; ch. ONE Introduction -- Organization of This Report -- ; pt. ONE Model, Background, and Methods -- ; ch. Two Conceptual Model -- ; ch. Three Background: Scan of the Literature on Effects of Payment Models on Physician Practice -- Overview -- Payment Models Included in the Scan -- Supplementary Payment Models -- Organizational Models That Combine Payment Models -- Alternative Payment Models: Existing Evidence on Prevalence and Effects on Physician Practice Outcomes -- ; ch. Four Methods -- Overview of Methodological Approach -- Justification for Qualitative Methods -- Data Collection -- Data Analysis -- Limitations -- ; pt. TWO Results ; Ch. Five Changes in Organizational Structure -- Overview of Findings -- Detailed Findings -- Comparison Between Current Findings and Previously Published Research -- ; ch. Six Changes in Practice Operations -- Overview of Findings -- Detailed Findings -- Comparison Between Current Findings and Previously Published Research -- ; ch. Seven Increased Importance of Data and Data Analysis -- Overview of Findings -- Detailed Findings -- Comparison Between Current Findings and Previously Published Research -- ; ch. Eight Interactions Among Payment Programs and Between Payment Programs and Government Regulations -- Overview of Findings -- Detailed Findings -- Comparison Between Current Findings and Previously Published Research ; Ch. Nine Physician Incentives and Compensation -- Overview of Findings -- Detailed Findings -- Comparison Between Current Findings and Previously Published Research -- ; ch. Ten Physician Work and Professional Satisfaction -- Overview of Findings -- Detailed Findings -- Comparison Between Current Findings and Previously Published Research -- ; ch. Eleven Factors Limiting the Effectiveness of New Payment Models as Implemented -- Overview of Findings -- Detailed Findings -- Comparison Between Current Findings and Previously Published Research -- ; ch. Twelve Conclusions -- Challenges and Opportunities for Physicians and Physician Practices -- Challenges and Opportunities for Health Plans -- Challenges and Opportunities for Hospitals -- Challenges and Opportunities for Vendors of Electronic Health Record Systems -- Challenges and Opportunities for Regulators -- Closing.

Sommario/riassunto

The project reported here aimed to describe the effects that alternative health care payment models have on physicians and physician practices in the United States. Project findings should help guide efforts to improve current and future alternative payment programs and help physician practices succeed in these new payment models. The report provides both findings and recommendations.
