

1. Record Nr.	UNINA9910702856103321
Autore	Bird Lori
Titolo	An examination of the regional supply and demand balance for renewable electricity in the United States through 2015 [[electronic resource] /] / Lori Bird ... [and others]
Pubbl/distr/stampa	Golden, Colo. : , : National Renewable Energy Laboratory, , 2010
Edizione	[Rev. June 2010.]
Descrizione fisica	1 online resource (vi, 43 pages) : color map
Collana	Technical report NREL/TP ; ; 6A2-45041
Altri autori (Persone)	BirdLori
Soggetti	Renewable energy sources - Economic aspects - United States Green marketing - United States Power resources - Economic aspects - United States
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Title from title screen (viewed April 3, 2009). Originally published March 2009. In the Demand-Side Analysis section, subsection titled Compliance (RPS) Markets, Table 16 (Page 22) was modified to correct a miscalculation of compliance market demand in Montana. In addition to Table 16, Figure 3 (Page 23) is amended to reflect the revisions. In the Supply and Demand Balance section, calculation errors impacted estimates of shortages and surpluses in the West, California, and the Midwest between 2010 and 2015. In the revised version of the report, Figure 4 (Page 24) - also Figure ES-1 (Page 2) - Table 17 (Page 28), and Table 18 (Page 29) are modified. The conclusions in the text of this section were unaffected. In Appendix B, the supply/demand graphs for the Midwest (Figure B1, Page 39), California (Figure B8, Page 42), and the West (Figure B9, Page 43) are also revised.
Nota di bibliografia	Includes bibliographical references (pages 35-37).
