

1. Record Nr.	UNINA9910702868503321
Titolo	Grazing management processes and strategies for riparian-wetland areas [[electronic resource] /] / by Sandra Wyman ... [and others]
Pubbl/distr/stampa	Denver, CO : , : U.S. Bureau of Land Management, National Science and Technology Center, Publishing Services, , 2006
Descrizione fisica	ix, 105 pages : digital, PDF file
Collana	Riparian area management Technical reference ; ; 1737-20
Altri autori (Persone)	WymanSandra
Soggetti	Range management - United States Grazing - Environmental aspects - United States Riparian ecology - United States Wetland conservation - United States
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Title from PDF title page (viewed on 01/29/2007). "BLM/ST/ST-06/002+1737"--P. [2] of cover.
Nota di bibliografia	Includes bibliographical references (pages 97-105).
Sommario/riassunto	This technical reference provides the most current information to further assist livestock operators and land managers in developing successful riparian-wetland grazing management strategies across a wide array of land types. It is also the core document for the Grazing Management for Riparian-Wetlands training course. This technical reference does not set forth a specific formula for identifying the type of grazing strategy best suited for an area. Rather, it provides information to help design appropriate grazing strategies so that soil and vegetation aspects, water issues, and wildlife and livestock needs are addressed in a collaborative manner.
