Note generali	Title from title screen (viewed on Feb. 4, 2009). "December 19, 2008." "GAO-09-225R."
Nota di bibliografia	Includes bibliographical references.
Sommario/riassunto	Over the last 10 years, [GAO has] reported on many of the major program areas of the ESA--listing, critical habitat, recovery, and the consultation process by which federal agencies ensure that their actions do not cause certain harms to listed species--and have made a number of recommendations for improvements. This report discusses recommendations that have been implemented and those that have not.
