Titolo	Collaboration of FSRG in dietary data collection and analysis for the Healthy Aging in Neighborhoods of Diversity Across the Life Span Study ... annual report
Pubbl/distr/stampa	[Washington, D.C.], : U.S. Dept. of Agriculture, Agricultural Research Service
ISSN	2156-0439
Descrizione fisica	: HTML files
Disciplina	394.12
Soggetti	Food habits - Maryland - Baltimore - Longitudinal studies City dwellers - Health and hygiene - Maryland - Baltimore - Longitudinal studies Public health - Maryland - Baltimore - Longitudinal studies Longitudinal studies. Periodicals. Maryland Baltimore
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Periodico
Note generali	"The primary objective [of HANDLS] is to create a representative 20-year longitudinal study of health status across the lifespan focused on investigating the differential influences of race and socioeconomic status on health in an urban population. The study recruits whites and African Americans 30-64 years old from the City of Baltimore, Maryland, in both low and high socioeconomic status. Data collection includes a baseline assessment and five follow-up triennial assessments over approximately 20 years."
