

1. Record Nr.	UNINA9910702972303321
Titolo	A cooperative strategy for 21st century seapower [[electronic resource] /] / Committee on Armed Services, House of Representatives, One Hundred Tenth Congress, first session
Pubbl/distr/stampa	Washington : , : U.S. G.P.O., , 2009
Descrizione fisica	1 online resource (iii, 97 pages) : illustrations
Soggetti	Sea-power - United States Naval strategy Unified operations (Military science)
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Title from title screen (viewed on Oct. 21, 2009). "Hearing held December 13, 2007". "H.A.S.C. no. 110-105."

2. Record Nr.	UNISA996217460803316
Titolo	Transportation research circular // Transportation Research Board, National Research Council
Pubbl/distr/stampa	Washington, D.C., : Transportation Research Board, National Research Council
Descrizione fisica	1 online resource
Disciplina	629.04/072073
Soggetti	Highway engineering - Research Roads - Design and construction - Research Road materials - Research Highway research - United States Transportation - Research - United States Air travel - Research - United States Railroads - Research - United States Shipping - Research - United States Roads - Design and construction Routes - Conception et construction Technique routière - Recherche Routes - Conception et construction - Recherche Routes - Matériaux - Recherche Routes - Recherche - États-Unis Transport - Recherche - États-Unis Voyages en avion - Recherche - États-Unis Air travel - Research Highway research Railroads - Research Shipping - Research Transportation - Research United States
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Periodico
Note generali	Separately cataloged in LC before no. 299.

Each issue has a distinctive title.

## Nota di contenuto

Heart -- Blood Vessels and Lymphatic Vessels -- Lung --  
Gastrointestinal Tract -- Liver -- Pancreas -- Salivary Glands -- Kidney  
-- Urinary Bladder -- Testis -- Epididymis -- Vas Deferens -- Seminal  
Vesicle -- Prostate Gland -- Ovary -- Fallopian Tubes -- Uterus --  
Vagina -- External Genitalia -- Adrenal Gland -- Thyroid Gland --  
Parathyroid Gland -- Pituitary Gland -- Thymus Gland -- Spleen --  
Lymph Nodes -- Palatine Tonsil -- Bone Marrow -- Brain and Spinal  
Cord -- Eye -- Ear -- Bone -- Skeletal Muscle -- Skin -- Mammary  
Gland -- Placenta -- Histological Changes Associated With Fetal  
Maceration.

---

## Sommario/riassunto

The first edition of Color Atlas of Fetal and Neonatal Histology was an important step in updating the histology texts available to practicing pathologists and pathology trainees who perform fetal autopsy and/or participate in research involving fetal tissues. It was a well-received volume that filled a major gap in pathology references related to normal histology and provided a comprehensive, state-of-the-art review of fetal and neonatal histology. While the basics of fetal histology have changed little in the intervening years since publication of the first edition, this successor edition provides new insights and a fresh perspective. This book contains six new chapters including: blood vessels and lymphatics, external genitalia, eye, ear, skin, and maceration changes. Many existing chapters have also been expanded to address a greater breadth of fetal and neonatal histology such as postnatal testis development and the cardiac conduction system. The "Special Considerations" sections were also expanded in many chapters to address particularly problematic issues within individual organ systems. The book reviews the histology of the major organ systems in the fetus and neonate and provides detailed images, up-to-date references, and practical guidelines for identifying tissues across all gestational ages of development. The second edition of Color Atlas of Fetal and Neonatal Histology serves as the ultimate go-to resource for pathologists and researchers dealing with, and interested in, fetal and neonatal histology. It provides a comprehensive summary of the current status of the field with excellent and extensive illustrative examples that help guide the clinical study of fetal and neonatal histology and stimulate investigative efforts with fetal tissue. .
