

1. Record Nr.	UNINA9910703252803321
Autore	Dentz Jordan
Titolo	Building America expert meeting report [[electronic resource]] : hydronic heating in multifamily buildings / / prepared by Jordan Dentz
Pubbl/distr/stampa	[Golden, CO] : , : [National Renewable Energy Laboratory], , [2011]
Descrizione fisica	1 online resource (v, 19 pages) : illustrations
Collana	NREL/SR ; ; 5500-52692
Soggetti	Hydronics Buildings - Environmental engineering Hot-water heating Steam
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Title from title screen (viewed Oct. 27, 2011). "October 2011"--P. [1]. "September 2011."--P. i. "Prepared for Building America Building Technologies Program, Office of Energy Efficiency and Renewable Energy, U.S. Department of Energy." "Prepared under Subcontract No. KNDJ-0-40347-00." "DOE/GO-102011-3383."

2. Record Nr.	UNINA9910298644003321
Autore	Kovacs Lajos <1961->
Titolo	100 Chemical Myths : Misconceptions, Misunderstandings, Explanations // Lajos Kovács, Dezs Csupor, Gábor Lente, Tamás Gunda
Pubbl/distr/stampa	Cham : , : Springer International Publishing, , [2014] ©2014
ISBN	3-319-08419-4
Descrizione fisica	1 online resource (xxii, 396 pages) : illustrations
Disciplina	540
Soggetti	Chemistry Common fallacies Chemistry/Food Science, general Popular Science, general
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Foreword (Joe Schwarcz) -- Acknowledgements -- Preface -- Chapter 1. Misconceptions in general -- Chapter 2. Food -- Chapter 3. Medicines -- Chapter 4. Catastrophes, Poisons, Chemicals -- Glossary of terms -- Sources and further reading -- Picture and figure credits -- Subject index.
Sommario/riassunto	100 Chemical Myths deals with popular yet largely untrue misconceptions and misunderstandings related to chemistry. It contains lucid and concise explanations cut through fallacies and urban legends that are universally relevant to a global audience. A wide range of chemical myths are explored in these areas; food, medicines, catastrophes, chemicals, and environmental problems. Connections to popular culture, literature, movies, and cultural history hold the reader's interest whilst key concepts are beautifully annotated with illustrations to facilitate the understanding of unfamiliar material. Chemical Myths Demystified is pitched to individuals without a formal chemistry background to fledgling undergraduate chemists to seasoned researchers and beyond.
