

1. Record Nr.	UNINA9910703262803321
Titolo	Vitamin D and calcium : a systematic review of health outcomes
Pubbl/distr/stampa	[Place of publication not identified], : Agency for Healthcare Research and Quality, 2009
Descrizione fisica	1 online resource (xvii, 342 p.)
Collana	Evidence report/technology assessment Vitamin D and calcium
Disciplina	612.3/99
Soggetti	<p>Vitamin D - Physiological effect</p> <p>Vitamin D - Dose-response relationship</p> <p>Calcium - Physiological effect</p> <p>Calcium - Dose-response relationship</p> <p>Nutrition - Requirements - Evaluation</p> <p>Health status indicators</p> <p>Secosteroids</p> <p>Health Surveys</p> <p>Metals, Alkaline Earth</p> <p>Biological Science Disciplines</p> <p>Blood Coagulation Factors</p> <p>Nutritional Physiological Phenomena</p> <p>Steroids</p> <p>Biological Factors</p> <p>Physiological Phenomena</p> <p>Natural Science Disciplines</p> <p>Elements</p> <p>Metals</p> <p>Data Collection</p> <p>Inorganic Chemicals</p> <p>Epidemiologic Methods</p> <p>Health Care Evaluation Mechanisms</p> <p>Polycyclic Compounds</p> <p>Quality of Health Care</p> <p>Public Health</p> <p>Investigative Techniques</p> <p>Health Care Quality, Access, and Evaluation</p> <p>Diagnostic Techniques and Procedures</p> <p>Environment and Public Health</p> <p>Delivery of Health Care</p>

Vitamin D
Health Status Indicators
Calcium
Statistics as Topic
Nutritional Requirements
Physiology
Human Anatomy & Physiology
Health & Biological Sciences
Animal Biochemistry
Statistics.
