

1. Record Nr.	UNINA9910703541103321
Autore	Kingsbury James A.
Titolo	Water quality in the Mississippi Embayment : Texas coastal uplands aquifer system and Mississippi River Valley alluvial aquifer, south-central United States, 1994-2008 // by James A. Kingsbury [and five others]
Pubbl/distr/stampa	Reston, Virginia : , : U.S. Department of the Interior, U.S. Geological Survey, , 2014
Descrizione fisica	1 online resource (viii, 72 pages) : color illustrations, color maps
Collana	Circular ; ; 1356
Soggetti	Water quality - Mississippi Embayment Water quality - Mississippi River Valley Groundwater - Quality - Mississippi Embayment Groundwater - Quality - Mississippi River Valley Groundwater - Quality Water quality Mississippi River Valley United States Mississippi Embayment
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Title from title screen (viewed on Apr. 28, 2015). "National Water-Quality Assessment Program." Appendix 3 requires Microsoft Excel to view.
Nota di bibliografia	Includes bibliographical references (pages 57-59).
Nota di contenuto	Overview of major findings and implications -- NAWQA approach to assessing groundwater quality -- Environmental and hydrogeologic setting -- Natural processes and human activities that affect groundwater quality -- Quality of the groundwater resource used for drinking water -- Understanding where and why key contaminants occur in shallow groundwater -- Understanding where and why key contaminants occur in deep groundwater used for public and domestic supply.
