

1. Record Nr.	UNINA9910703542503321
Autore	Warner Kelly L.
Titolo	Water quality in the glacial aquifer system, northern United States, 1993-2009 // by Kelly L. Warner and Joseph D. Ayotte
Pubbl/distr/stampa	Reston, Virginia : , : U.S. Department of the Interior, U.S. Geological Survey, , 2014
Descrizione fisica	1 online resource (viii, 116 pages) : color illustrations, color maps
Collana	Circular ; ; 1352
Soggetti	Water quality - United States Groundwater - Quality - United States Groundwater - Quality Water quality United States
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Title from title screen (viewed on February 23, 2015). "National Water-Quality Assessment Program." Includes zip file of data archive.
Nota di bibliografia	Includes bibliographical references (pages 87-93).
Nota di contenuto	Overview of findings and implications -- NAWQA approach to assessing water quality in the glacial aquifer system -- Environmental and hydrogeologic setting -- Natural processes and human activities that affect the quality of water in the glacial aquifer system -- What is the quality of the drinking water resource? -- Understanding where and why constituents from geologic sources are detected in the glacial aquifer system -- Understanding where and why contaminants from human activities are in the glacial aquifer system.
