Note generali	Title from title screen (viewed on Dec. 5, 2013). "April 2013."
Nota di bibliografia	Includes bibliographical references (pages 22-24).
Sommario/riassunto	This paper explores the possibility of financing renewable energy projects through raising capital in the public markets. It gives an overview of the size, structure, and benefits of public capital markets, as well as showing how renewable energy projects might take advantage of this source of new funds to lower the cost of electricity.
