

1. Record Nr.	UNINA9910705644303321
Titolo	Development of design guidelines for user/operator transactions with battlefield automated systems: executive summary // Synectics Corporation
Pubbl/distr/stampa	Alexandria, VA : , : U.S. Army Research Institute for the Behavioral and Social Sciences, , January 1984
Descrizione fisica	1 online resource (28 unnumbered pages) : illustrations
Collana	Research note ; ; 84-29
Soggetti	Electronics in military engineering - United States Maintainability (Engineering) - United States Task analysis - United States Technology transfer - United States Handbooks and manuals.
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	"Raymond C. Sidorsky, Contracting Officer's Representative." "January 1984."
Nota di bibliografia	Includes bibliographical references (page [28]).
Sommario/riassunto	"This document is an executive summary of a project to develop design guidelines for achieving more effective user transactions with battlefield automated systems...based on a comparative analysis of common or universal transactions associated with existing data processing systems"--Report documentation page.
