

1. Record Nr.	UNINA9910706133503321
Autore	Rivers H. Kevin
Titolo	Cyclic cryogenic thermal-mechanical testing of an X-33/RLV liquid oxygen tank concept / / H. Kevin Rivers
Pubbl/distr/stampa	Hampton, Virginia : , : National Aeronautics and Space Administration, Langley Research Center, , September 1999
Descrizione fisica	1 online resource (13 pages) : illustrations
Collana	NASA/TM ; ; 1999-209560
Soggetti	7 - Cyclic loads Storage tanks Propellant tanks Load tests Load testing machines Flight simulation
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	"September 1999." "Performing organization: NASA Langley Research Center"--Report documentation page.
Nota di bibliografia	Includes bibliographical references (page 11).

2. Record Nr.	UNINA9910954932303321
Titolo	Nonconvulsive status epilepticus / / edited by Peter W. Kaplan, Frank W. Drislane
Pubbl/distr/stampa	New York, NY, : Demos Medical, c2009
ISBN	1-282-07529-2 9786612075292 1-934559-60-1
Edizione	[1st ed.]
Descrizione fisica	1 online resource (317 p.)
Altri autori (Persone)	KaplanPeter W. <1951-> DrislaneFrank
Disciplina	616.8/53
Soggetti	Epilepsy
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	The history of nonconvulsive status epilepticus / Peter W. Kaplan -- The classification of nonconvulsive status epilepticus / Simon Shorvon -- The epidemiology of nonconvulsive status epilepticus / Elizabeth J. Waterhouse -- The electroencephalogram of nonconvulsive status epilepticus / Susan T. Herman -- Controversial electroencephalographic patterns and nonconvulsive status epilepticus / Richard P. Brenner -- Imaging in nonconvulsive status epilepticus / Jonathan C. Edwards and Diana Gomez-Hassan -- Pathophysiology of nonconvulsive status epilepticus / Jaideep Kapur -- Frontal lobe nonconvulsive status epilepticus / Pierre Thomas and Benjamin Zifkin -- Parietal lobe nonconvulsive status epilepticus / Jennifer Hopp and Allan Krumholz -- Temporal lobe nonconvulsive status epilepticus / Heinz Gregor Wieser and Michael Fischer -- Occipital lobe nonconvulsive status epilepticus / Barbara C. Jobst, David W. Roberts, and Peter D. Williamson -- Absence status epilepticus / Michael Koutroumanidis -- Nonconvulsive status epilepticus in critically ill and comatose patients in the intensive care unit / Jeffrey Jirsch and Lawrence J. Hirsch -- Nonconvulsive status epilepticus : a mimicker of neurologic disorders / Krzysztof Bujarski and Michael R. Sperling -- Psychiatric manifestations of nonconvulsive status epilepticus / Ada V. Chicharro and Andres M. Kanner -- Nonconvulsive status epilepticus in infants / Christian M. Korff and

Douglas R. Nordli, Jr. -- Nonconvulsive status epilepticus in children / James J. Riviello, Jr. -- Nonconvulsive status epilepticus in the elderly / Frank W. Drislane -- Nonconvulsive status epilepticus : special considerations in the mentally retarded / Randa Y. Makhoul and Mohamad A. Mikati -- Principles of treatment of nonconvulsive status epilepticus / Matthew C. Walker -- Prognosis and outcomes of infants and children with nonconvulsive status epilepticus / Alexis Arzimanoglou and Edouard Hirsch -- Prognosis and outcomes of adults with nonconvulsive status epilepticus / Nathan B. Fountain.

Sommario/riassunto

The only comprehensive source of information on this frequently misdiagnosed problem, with information critical for physicians, ER and ICU doctors, and psychiatrists. An under-recognized condition that can potentially cause brain damage and even death, nonconvulsive status epilepticus (NCSE) is an important clinical problem, occurring in about 25% of status epilepsy cases. Despite this prevalence, Nonconvulsive Status Epilepticus is the first comprehensive clinical text to cover its diagnosis and management. The book progresses logically, beginning with chapters discussing the history and clas
