

1. Record Nr.	UNINA9910706239903321
Autore	Horn Thomas J.
Titolo	Experimental and numerical characterization of a steady-state cylindrical blackbody cavity at 1100 degrees celsius / / Thomas J. Horn, Amanie N. Abdelmessih
Pubbl/distr/stampa	Edwards, California : , : National Aeronautics and Space Administration, Dryden Flight Reserch Center, , August 2000
Descrizione fisica	1 online resource (15 pages) : illustrations
Collana	NASA/TM ; ; 2000-209022
Soggetti	Experimentation Numerical analysis Steady state Cavities Cylindrical bodies Heat transfer Measuring instruments
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	"August 2000." "Presented at 34th National Heat Transfer Conference, Pittsburgh, Pennsylvania, August 20-22, 2000"-- Report documentation page. "Performing organization: NASA Dryden Flight Research Center"-- Report documentation page.
Nota di bibliografia	Includes bibliographical references (page 15).
