| Lingua di pubblicazione | Inglese  |
| Formato                 | Materiale a stampa   |
| Livello bibliografico   | Monografia   |
| Note generali           | Title from title screen (viewed September 26, 2014).<br>"The 35 species and 12 genera of presently known United States Mesozoic charophytes are described and illustrated. Seventeen species and one genus are new. Their common occurrence, worldwide distribution, and easy identification make them helpful in subdividing nonmarine strata."<br>Title page and contents of: Shorter contributions to general geology, 1956, precedes title page. |
| Nota di bibliografia    | Includes bibliographical references (pages 41-42) and index.   |
