

1. Record Nr.	UNINA9910706520903321
Autore	Campbell Bryan A.
Titolo	Subsonic investigation of a leading-edge boundary layer control suction system on a high-speed civil transport configuration // Bryan A. Campbell [and seven others]
Pubbl/distr/stampa	Hampton, Virginia : , : National Aeronautics and Space Administration, Langley Research Center, , December 1999
Descrizione fisica	1 online resource (128 pages) : illustrations
Collana	NASA/TM ; ; 1999-209700
Soggetti	Boundary layer control Leading edges Wind tunnel tests Flaps (control surfaces) Pressure effects Subsonic speed Supersonic transports Aerodynamic configurations
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	"December 1999." "Performing organization: NASA Langley Research Center"--Report documentation page.
Nota di bibliografia	Includes bibliographical references (page 128).
