

1. Record Nr.	UNINA9910707085403321
Autore	Lipman Peter W.
Titolo	Ground deformation associated with the 1975 magnitude-7.2 earthquake and resulting changes in activity of Kilauea Volcano, Hawaii // by Peter W. Lipman [and four others]
Pubbl/distr/stampa	Reston, Virginia : , : Department of the Interior, U.S. Geological Survey, , 1985 Washington : , : United States Government Printing Office
Descrizione fisica	1 online resource (iii, 45 pages) : illustrations, maps
Collana	U.S. Geological Survey professional paper ; ; 1276
Soggetti	Earth movements - Hawaii - Kilauea Volcano Earthquakes - Hawaii Kilauea Volcano (Hawaii) Eruptions
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Title from title screen (viewed October 9, 2014). "The 1975 earthquake, the largest on Hawaii Island in more than 100 years, was associated with major gravitational slumping of the seaward flank of Kilauea Volcano; maximum displacements were as much as 3.5 m vertically and 8 m horizontally." Also available online in PDF format from the U.S. Geological Survey Warehouse (http://pubs.er.usgs.gov/).
Nota di bibliografia	Includes bibliographical references (pages 44-45).
